Elevator Type

Home Elevator

Home Lift is the elevator designed to meet vertical mobility needs in public and private buildings.

It is the ideal solution for elderly and impaired mobility persons who can finally move autonomously and free from stairs.

It is a modern product, designed and manufactured to meet a wide range of needs : from the garage to the roof, you can move effortlessly up to 4 floors.

- Is noiseless and easy to install.
- Requires a minimal space.
- 1-Year warranty.

MRL Elevator

- Machine Roomless passenger elevator takes less space, which enable you to effectively utilize the construction space.
- They save the construction time, materials and costs.
- The combined design of machine room, together with the hois-way and highly effective installation ensures freedom to the engineering by the installation of elevators.
